COMP3278 Final Project Assessment Criteria

Total: 100 marks

- Submission Materials and Reproducibility: 30 marks.
- Presentation: 70 marks.
- All members of the same group will receive the same mark.

A. Submission Materials and Reproducibility: 30 marks

Assessment Item	Marks
Completeness of the source code and required files	10
README: installation and run instructions	10
README: database setup, configuration, and initial data instructions	10
Subtotal	**30**

The main criterion for the submitted materials is reproducibility: the marker should be able to follow the README to run the application and set up a database populated with data.

B. Presentation: 70 marks

Assessment Item	Marks
1. Introduction to the web app’s functionality and design	10
2. Explanation of the ER diagram	10
3. Explanation of key SQL statements	15
4. Video demonstration of CRUD functionality and database operations	25
5. Overall organization, delivery, participation of all group members, and time management	10
Subtotal	**70**

Basic Requirements

- The presentation should be 5 minutes in total.
- CRUD functionality and database operations should be demonstrated in the video.
- The video must not exceed 2 minutes and is included in the 5-minute presentation time.
- Every group member must speak during the presentation.
